

1. Download the Baby Yoda template from here:

<https://www.simpleeverydaymom.com/wp-content/uploads/2020/02/baby-yoda-puppet-craft.pdf>

Print it, cut out the shapes, and color them in.

Face and Large Ears = Green

Small Ears = Pink

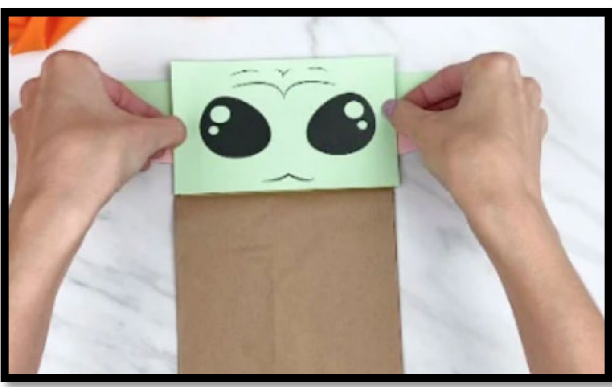

2. After cutting the shapes out and colouring them, glue the pink small ear pieces to the green large ear pieces, as shown in the image below.

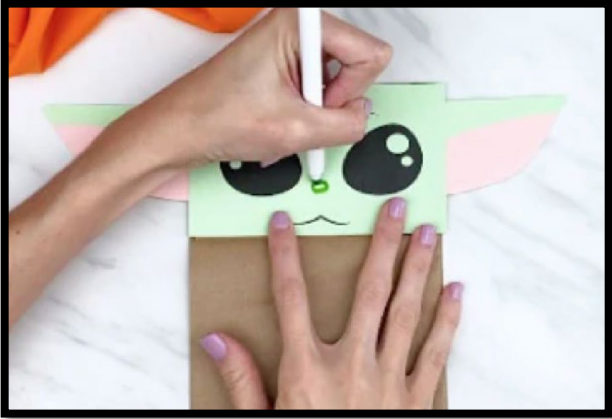

3. Glue the completed ears to the top flap of the brown paper bag on the left and right sides.

4. Glue the face on top of the flap of the bag, covering up part of the ears.

5. Use a green marker to draw on a small nose just between the eyes.

6. Use scissors to cut out 4 small circles from paper. Glue these over the circles in Yoda's eyes.

7. Use a dark brown marker to draw on the coat details.

8. Finally, use a light brown marker to draw on the fluffy top part of his coat. And then you're done! Great job!
